

# Product Update

## Release log

Update/Feature	Description
<b>NEW FEATURE:</b> Dashboard >> Custom Templates & Standard Templates	<p>Contify platform now offers templates in Dashboard module:</p> <p><b>Standard Templates:</b> Setup by Contify, available to all users while creating widgets in dashboards</p> <ol style="list-style-type: none"><li>1. The standard templates will be created by Contify on an ongoing basis, and such templates will be available for all users to leverage while creating widgets</li><li>2. These are accessible to users inside the 'Standard' tabs of Templates and Library sections in the Create Widget popup</li><li>3. These templates cannot be modified and are offered as a part of Contify standard solution</li></ol> <p><b>Custom Templates:</b> Custom templates can be setup at a client-level. Such templates will be created for a client, and will only be visible to that particular client account</p> <ol style="list-style-type: none"><li>1. These are accessible to users inside the 'Custom' tabs of Templates and Library sections in the Create Widget popup</li><li>2. These templates can be modified on-demand and will be offered as a part of bespoke client-specific solution</li></ol>

<p><b>NEW FEATURE:</b> Dashboard &gt;&gt; Pre-defined query widgets</p>	<p>Contify platform offers widgets that auto-populate data at the time of creation:</p> <p><b>Key Updates Widget:</b> This is available under the ‘Standard’ tab of Library section in the Create Widget popup</p> <ol style="list-style-type: none"> <li>1. While creating this widget, user will be prompted to specify a company</li> <li>2. Once the company is specified and widget is created, the widget will display all the Key Updates (Top News) for the specified company in the widget. No need to create a Saved Search to feed data in the widget!</li> </ol> <p><b>Company Overview Widget:</b> This is also available under the ‘Standard’ tab of Library section in the Create Widget popup</p> <ol style="list-style-type: none"> <li>1. While creating this widget, user will be prompted to specify a company</li> <li>2. Once the company is specified and widget is created, the widget will display firmographic information for the specified company in the widget. No need to create a Saved Search to feed data in the widget!</li> <li>3. The data inside the widget is driven by Company Profile (in Contify admin site), and will only display information if LinkedIn ‘Description’ is available. In the future, the fetching of company description from LinkedIn will also be automated</li> </ol>
<p><b>NEW FEATURE:</b> Integration &gt;&gt; MS Teams</p>	<p>Just like Slack, Contify platform now can integrate with MS Teams to send information from Contify platform to MS Teams channels.</p>
<p><b>NEW FEATURE:</b> Integration &gt;&gt; Email Integration</p>	<p>Users can add Primary Intel using this email integration. More details in the <a href="#">help doc</a>.</p>
<p><b>FEATURE IMPROVEMENT:</b> Newsfeed &gt;&gt; Analysis Tab &gt;&gt; Summarization via BERT ML Model</p>	<p>The Facts and Summary under the Analysis tab on each news card in the newsfeed is now generated using the BERT ML Model. This will enhance the accuracy and relevancy of automated analysis of each update</p>

<b>FEATURE IMPROVEMENT:</b> Dashboard >> Newsfeed Widget >> Expanded view to display intro/summary	In dashboard newsfeed widget, there is a new toggle introduced that will now expand the newsfeed widget to display the news intro/summary (as it's written in the news card).
<b>FEATURE IMPROVEMENT:</b> Dashboard >> Option to add border in widgets	Users can add border in dashboard widgets. Currently, there are 4 color options available. The idea is to allow analysts to highlight a particular widget, or to visually club a few widgets together.
<b>FEATURE IMPROVEMENT:</b> Dashboard >> Option to add border in widgets	Users can add border in dashboard widgets. Currently, there are 4 color options available. The idea is to allow analysts to highlight a particular widget, or to visually club a few widgets together.
<b>FEATURE IMPROVEMENT:</b> User Analytics >> 'Score' logic	The logic of how each user 'Score' is calculated in User Analytics is displayed at the end of the page.
